

2-3/8" Fixed Engineered Panel Clip

Application

Standing seam panel clips used for attachment of mechanically seamed panel types securing a fixed connection point wherein there is minimal differential movement of the roof panel

Features and Benefits

- Manufactured from high quality, corrosion resistant steel meeting strict mechanical property requirements
- Tightly controlled manufacturing tolerances for a secure and functional fit every time
- Allows only a very limited amount of thermal movement. Always follow the standing seam panel manufacturer's details and instructions on proper use, location and performance values of fixed clips when used with their respective panel
