

1-1/2" Fixed Engineered Panel Clip

Application

Standing seam panel clips used for attachment of mechanically seamed panel types securing a fixed connection point wherein there is minimal differential movement of the roof panel

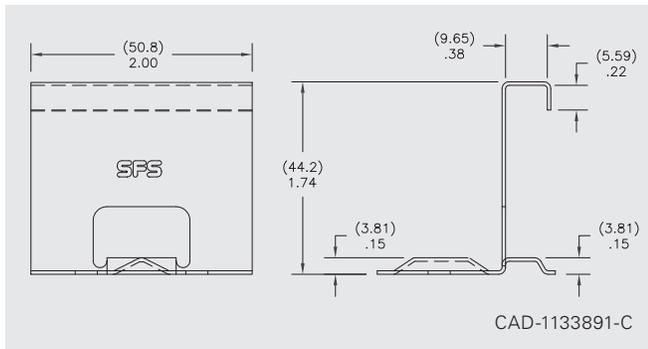

Features and Benefits

- Manufactured from high quality, corrosion resistant steel meeting strict mechanical property requirements
- Tightly controlled manufacturing tolerances for a secure and functional fit every time
- Allows only a very limited amount of thermal movement. Always follow the standing seam panel manufacturer's details and instructions on proper use, location and performance values of fixed clips when used with their respective panel

Product Selection

Material No.	Item	Description	Carton Wt. (lbs.)	Carton Qty.
1085437	1-1/2" Fixed clip	22 ga. (0.8 mm) G-90 Galvanized	48	250
1133891	1-1/2" Fixed clip	22 ga. (0.8 mm) 304SS	48	250
1291010	1-1/2" Fixed clip	24 ga. (0.6mm) 304SS	48	250
1215420	1-1/2" Fixed clip	26 ga. (0.5mm) 304SS	48	250

*Sealant applied.

Specifications

Height: 1.74" (44.20 mm)
 Width: 2.00" (50.80 mm)
 Holes: 2-hole

Installation and Application Considerations

- Compatible with:
 - Englert S1300
 - Knudson KR24
 - New Tech SS150
 - Ultra Seam US-150
 - Zimmerman SS1500
 - ESE 1-1/2"
 - Knudson VP24/21/Varipan
 - Quadro 1-1/2" Mechanical
 - Ultra Seam US-150C
- Refer to SFS standing seam fastener offering for panel clip attachment options
- Always consult with panel manufacturer or design engineer to ensure proper clip recommendations
